Spot Light Manager

Smart Business Solution for Restaurants

About

Spot Light Manager is a modern digital solution designed for restaurants, biriyani shops, and cloud kitchens. It helps business owners manage billing, stock, profitability, and reporting through one simple and professional platform.

Solution

We provide a practical operating system for daily restaurant management. Instead of depending on manual methods, the business can use a digital workflow that improves speed, accuracy, and control.

Key Features

- Fast and simple billing
- Stock and inventory tracking
- Profit and cost visibility
- Sales and reporting dashboard
- Branch-ready structure for future growth
- Website and business presence support

Benefits

- saves time at the counter
- reduces manual errors
- improves profitability visibility
- helps owners make better decisions
- supports business growth and scalability

Pricing Plans

Starter Plan

Best for a small shop or first-time adoption

- basic billing and stock setup
- essential reporting tools
- lower monthly investment

Growth Plan

Best for expanding restaurants

- more reporting and operational visibility
- better support and upgrade path
- suitable for growing businesses

Pro Plan

Best for premium business control

- advanced insights and reporting

- stronger support and scalability
- ideal for larger or fast-growing operations
