Spot Light Manager - Pricing Sheet for Restaurant Owners

Recommended pricing options

Option 1 - One-time setup + support

Best for owners who want a fixed project cost and a clear implementation package.

Suggested range:

- Setup and onboarding: Rs. 35,000 - Rs. 60,000
- Annual support / maintenance: 15% - 20% of project value

Option 2 - Monthly subscription

Best for recurring revenue, long-term support, and ongoing upgrades.

Suggested range:

- Starter plan: Rs. 999 / month per branch

- Basic billing, stock, and reporting

- Suitable for a single small shop or first-time adoption

- Growth plan: Rs. 1,999 / month per branch

- Includes more reporting, more operational visibility, and better support

- Suitable for growing restaurants and multi-branch operations

- Pro plan: Rs. 3,499 / month per branch

- Advanced reporting, deeper business insights, premium support, and future-ready modules

- Suitable for larger businesses that need stronger control and scalability

Option 3 - Hybrid model

Best balance for first-time customers who want a lower entry cost but future expansion options.

Suggested range:

- Setup fee: Rs. 25,000
- Monthly support: Rs. 1,499 / branch

What is included in each plan

Starter plan

- system setup

- priority upgrades and future feature rollout

Optional add-ons

- cloud backup and multi-device access
- branch-wise reporting
- advanced accounting and expense tracking
- payroll and attendance
- WhatsApp reporting
- loyalty and customer management
- custom integrations and API-based workflows

Suggested sales message

This is not just software. It is a practical business tool that helps the owner control billing, stock, and profit more professionally while reducing daily chaos.

Suggested client conversation

If the client asks about price, the best approach is:

- explain the value in terms of saving time and improving profit visibility
- compare it to the cost of manual errors, stock loss, and poor reporting
- position it as an operational investment, not just an app cost
- show them that each plan matches a different business stage and support need
